The Arizona Department of Juvenile Corrections (ADJC) shall design a work program to promote opportunities for ADJC juveniles. Juveniles on conditional liberty or on deferred revocation status who are ordered to pay restitution or monetary assessments but are financially unable to pay, or unable to be employed to earn money to pay restitution or monetary assessments, shall be permitted to complete community service when the Director, or designee, determines that such substitution is in the best interest of the juvenile and the community. All work assignments shall be adequate and compatible with the condition and limitations of the juvenile's physical and mental health. No committed juvenile on conditional liberty or on deferred revocation status shall participate in a work assignment that threatens the safety and security of the public or the committed juvenile.

Juveniles are prohibited from being used as health care workers.
